VISION® Helmet Series

- The Vision hood is light, slim and will fit into tight areas, all while offering optimal face, ear and neck coverage.
- The ArcOne® Vision® helmet series offers premium quality features for heavy-duty, all-day welding:
- HD Technology – see below
- Best-in-class optical clarity & sensitivity
- X-TIG technology: ideal for low amp TIG welding or in an environment with obstructed views. While in the X-TIG mode, sensors are triggered by the electromagnetic field that is created when you start to weld rather than by the light of an arc.
- Large viewing areas
- Dust and water resistant to withstand the toughest conditions
- Wide dark state shade range
- ComfaGear® headgear
- Patented cover plate quick-change system
- All Vision® Auto-Darkening lenses meet ANSI and CSA standards.

VISION® BFFVX Auto-Darkening Welding Helmet

- The largest viewing area in the industry!
- Low power consumption solar battery – only needs charge every 4-6 months.
- 3-year warranty.

See color in its truest form with ArcOne's new HD Technology. This innovative technology increases the range of visible light when looking through the lens, and while welding. By increasing the range of light, more natural colors can be seen, providing a clearer, more defined view of your work area.

See the difference!
